

Claim 3, line 1, change "An engine" to --The engine--;  
same line, delete "or 2".

Claim 4, line 1, change "An engine" to --The engine--.

Claim 5, line 1, change "An engine" to --The engine--.

Add the following new claims:

sub 32

--6. The engine as claimed in claim 2 in which the carburettor has one or more jets arranged to introduce fuel into the inlet duct at a position immediately upstream of that at which it is divided into two or more inlet passages and the throttle valve is positioned such that, under low load conditions, it permits the fuel discharge from the jet(s) to flow into both the rich and lean passages and, under high conditions, it directs substantially all the fuel to flow into the rich passage. --

<sup>4</sup>  
--7. The engine as claimed in claim <sup>3</sup>6 in which the carburettor includes an internal portion wall which forms a continuation of the wall dividing the rich passage from the adjacent lean passage, an aperture being formed in the internal partition wall, and the throttle valve is pivotally mounted for movement within the said aperture, whereby the aperture is open under low load conditions and closed under high load conditions. --
